Dear Scott,

I would like to thank you and Lloyd once again for the beautiful work you did on my mom's bathroom renovation. It was an amazing transformation and everything that we hoped for. Despite the unexpected setbacks with the foundations, electrical and plumbing deficiencies of the old structure, you were able to get the work done on schedule and on budget. The extra care to detail that you took plus the nice pictures and accessories that you picked out were greatly appreciated. If you need any reference for your work in the future, you can certainly pass my name and number along to any clients.

Thanks once again for the terrific work Scott.

Sincerely,
